

Sample Backing Press DK25SP

Samples backed in minutes!

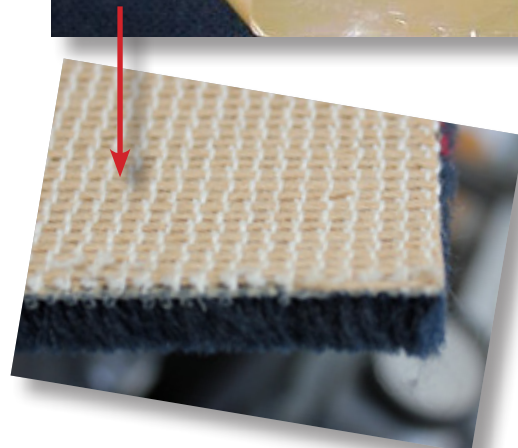

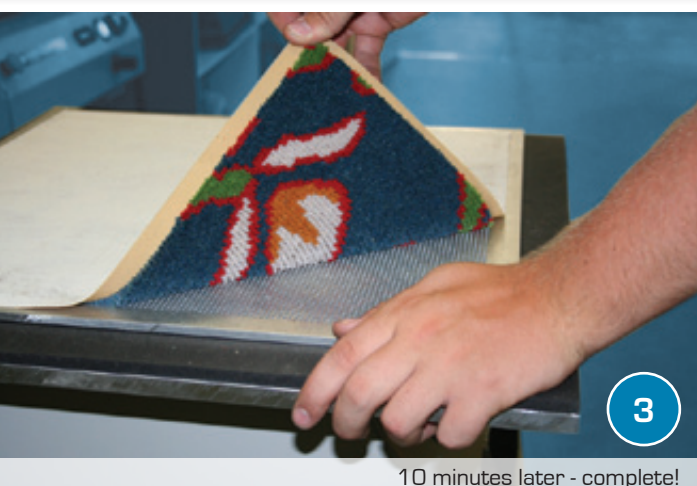

Two forms of
backing material

1. Lined hotmelt (with poly) backing

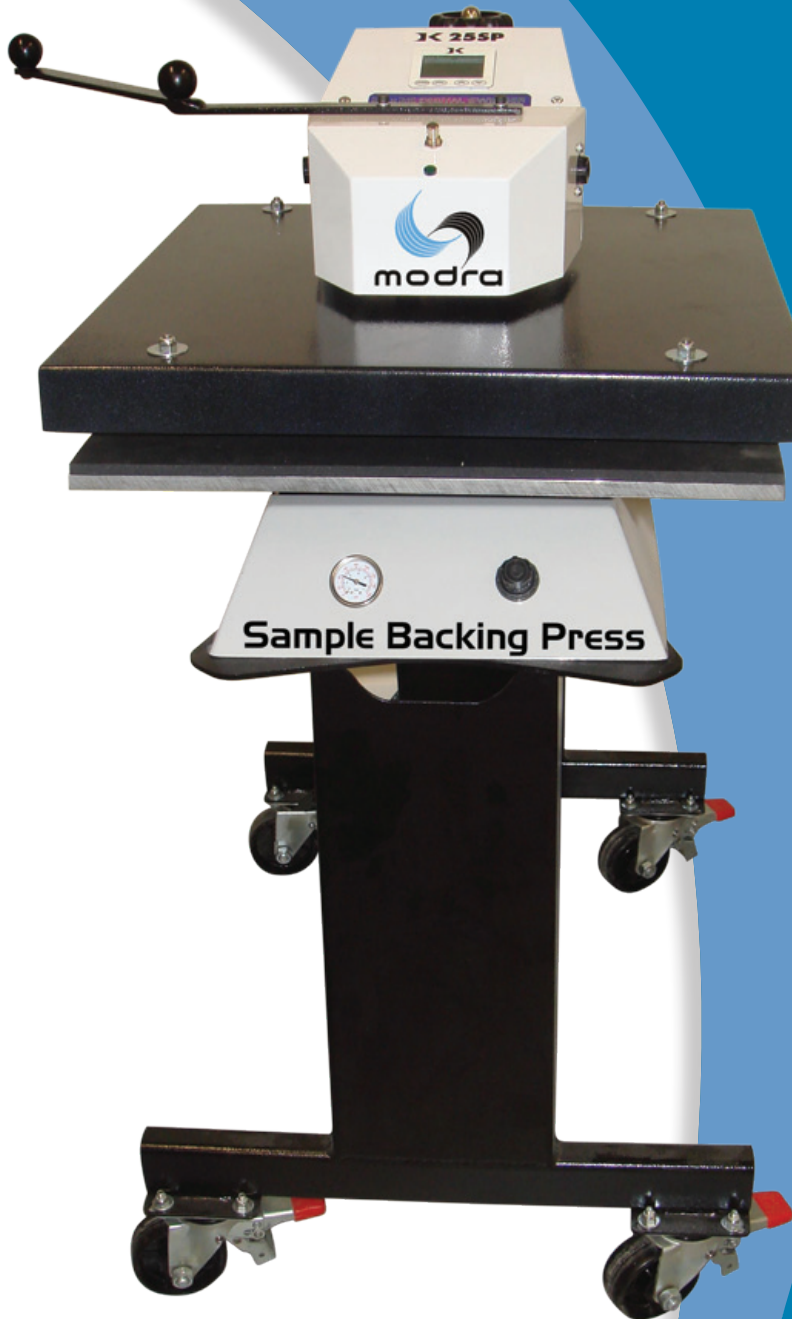

2. Release hotmelt (no backing)

Use release hotmelt backing with your own secondary backing.

SAMPLE BACKING SOLUTIONS FOR KIBBY AND MTUFT

The new DK25SP Modra Sample Backing Press has been developed specifically to allow the backing of up to 500 x 500 mm samples. This machine is perfectly matched to the new Kibby axminster sample machines capable of producing 500 x 500mm axminster samples.

Modra Technology can provide hotmelt sheet material in a range of styles including non woven backed "poly" type or "release" type allowing a customer-sourced secondary backing to be applied to the sample.

The new DK25SP Modra Sample Backing Press can also be used for applying a clean backing to tufted samples from the Mtuft range of tufted sample machines.

Ask Modra or your local agent for a video of operation or hotmelt material sample.

Model Number	DK25SP
Machine WxDxH (mm)	620x1000x1500
Shipping Weight	230kg
Power Requirements	220/240V Single Phase 20 Amps
Air Supply Requirements	150 lit/min @ 7 bar

All specifications subject to change without notice.

The all new Modra Sample Backing Press is used to apply a hot melt backing to samples produced on the Kibby and the Mtuft machines. This gives a fast, clean method of backing samples of any size up to 500mm x 500mm.
