

Sample Backing Press

SAMPLE BACKING SOLUTIONS FOR KIBBY AND MTUFT

The all new Modra Sample Backing Press is used to apply a hot melt backing to samples produced on the Kibby and the Mtuft Machines. This gives a fast, clean method of backing samples of any size up to 500mm x 500mm.

Hot melt easily applied

10 minutes later – complete!

DK25SP – Sample Backing Press

The New DK25SP Modra Sample Backing Press has been developed specifically to allow the backing of up to 500 x 500 mm samples. This machine is perfectly matched to the new Kibby G4 Axminster Sample Machine capable of producing 500 x 500 mm Axminster Samples.

Modra Technology can provide hotmelt sheet material in a range of styles including non woven backed “poly” type or “release” type allowing a customer-sourced secondary backing to be applied to the sample.

The New DK25SP Modra Sample Backing Press can also be used for applying a clean backing to tufted samples from the Mtuft Range of Tufted Sample Machines.

Ask Modra or your local agent for a video of operation or hotmelt material sample.
